

MUHAMMAD DANIAL

Full-Stack Developer (MERN & Python/Django) | AI Agents & n8n Automation

Gujrat, Pakistan | Email: innocentdaniel00@gmail.com | Phone/WhatsApp: +92 313 7525862

Portfolio: danial-portfolio-theta.vercel.app | GitHub: github.com/muhammaddaniel104

PROFESSIONAL SUMMARY

Disciplined Full-Stack Developer with a Bachelor in Robotics and a 6-month software engineering internship at ITS Gujrat. Shipped 2 commercial MERN web platforms, autonomous n8n agentic pipelines, Python Django REST APIs, responsive Bootstrap 5 interfaces, and intelligent mini chatbot automations.

TECHNICAL SKILLS

AI & Automation: AI Agents, n8n Workflows, Agentic AI, Gen AI, Mini Chatbot Automation, Webhooks
Backend & Python: Python, Django Framework, Django REST Framework, Node.js, Express.js, MongoDB
Frontend & Styling: React.js (React 18), Bootstrap 5, JavaScript (ES6+), Tailwind CSS, Redux Toolkit
Tools & Deployment: Git, GitHub, Postman API Testing, Vercel, RESTful APIs, JWT Authentication

PROFESSIONAL EXPERIENCE

Software Engineering Intern - ITS Gujrat

March 2024 - August 2024 | Gujrat, Pakistan

- Engineered and deployed 2 commercial MERN e-commerce platforms with Stripe checkout & live stock sync.
- Built modular Express REST APIs and MongoDB schemas with JWT auth protection and input validation.
- Implemented responsive UI with React.js, Redux Toolkit cart persistence, and admin order controls.

NOTABLE PROJECTS

n8n Autonomous Multi-Agent Workflow Engine | n8n, AI Agents, Python, Gen AI

- Engineered autonomous agentic workflows orchestrating webhook data capture and Gen AI prompt parsing.
- Built custom Python execution nodes and automated notification dispatch to WhatsApp & CRM pipelines.

Python Django Mini Chatbot & Lead Automation | Python, Django, Bootstrap 5

- Developed embeddable, responsive customer support chatbot with Bootstrap 5 frontend & Django REST API.
- Implemented automated intent matching and webhook triage for instantaneous query resolution.

Commercial Multi-Vendor E-Commerce Platform | React, Node, Express, MongoDB

- Production digital storefront shipped at ITS Gujrat with role-based admin controls and Stripe webhook sync.

EDUCATION

Bachelor of Science in Robotics & Autonomous Systems

Core Focus: Deterministic State Machines, Kinematics, Python Scripting, Computational Math
